FIP DIGITAL PROGRAMME

**TRANSFORMING
VACCINATION**

GLOBAL & REGIONAL

Welcome to the “Transforming Vaccination Regionally & Globally” Programme

Transforming Vaccination Regionally and Globally is the first FIP Transformation outcome-based online programme of its kind underpinned by the FIP Development Goals (FIP DGs).

Final outcome of the programme is a historic global FIP Commitment to Action on Vaccination in Pharmacy.

A FIP Transforming Vaccination Collection (2021).

TRANSFORMING VACCINATION

GLOBALLY & REGIONALLY

ROADMAP
SEPTEMBER
TO DECEMBER
2020

SERIES #1

Identifying transformation needs

The needs of the pharmaceutical
science, practice and workforce
of vaccination

SERIES #2

Setting transformative goals

Deconstructing vaccination in pharmacy
through the FIP Development Goals
(FIP DGs) across the entire profession

SERIES #3

Committing to transformation

Delivering a global commitment
to action on vaccination

#1

SEPT / OCT

Main outcome

Identification of needs &
considerations for transforming
vaccination globally across
practice, science and workforce
& education.

#2

OCT / NOV

Main outcome

Discussing mechanisms and
drivers to progress the most
relevant FIP Development Goals
(FIP DGs) in the context of trans-
forming vaccination in pharmacy.

#3

DEC

Main outcome

Delivering a global FIP
Commitment to Action on
Vaccination in Pharmacy.

Transforming Vaccination Regionally & Globally Webpage
transformingvaccination.fip.org

Engage with us and help us answer the following questions:

1. What single factor should be prioritized to transform pharmacy vaccination services globally and regionally?
2. What would be the most important achievement in terms of pharmacy vaccination services in your country in the next five years?
3. What else should the FIP Commitment to action outline?

The Philippine Pharmacy Law Enacted in 2016

FIP DIGITAL PROGRAMME

TRANSFORMING
VACCINATION

GLOBALLY & REGIONALLY

The law faced some challenges and was only enacted in the last session day of the Congress.

The scope of practice of Filipino pharmacists includes administration of adult vaccines, a deliberate move to avoid pediatric vaccines due to stronger opposition.

(g) Administration of adult vaccines as approved by the Food and Drug Administration (FDA): *Provided*, That they shall undergo the training on the safe administration of adult vaccines and management of adverse event following immunization (AEFI) for pharmacists and hold a certificate of training issued by an institution duly accredited by the Professional Regulation Commission (PRC): *Provided, further*, That the safe administration of vaccines be part of the higher education curriculum for pharmacists; or

(b) *Adult vaccines* refer to cervical cancer, flu (influenza), pneumococcal, other pre-exposure prophylactic vaccines to be administered to patients aged eighteen (18) years and above, and such other vaccines as may be defined by the Department of Health (DOH) in an administrative issuance;

ROAD TO TRANSFORMING VACCINATION IN THE PHILIPPINES

H. No. 5616
S. No. 2436

Republic of the Philippines
Congress of the Philippines
Metro Manila
Sixteenth Congress
Third Regular Session

Begun and held in Metro Manila, on Monday, the twenty-seventh
day of July, two thousand fifteen.

[REPUBLIC ACT NO. 10918]

AN ACT REGULATING AND MODERNIZING THE PRACTICE
OF PHARMACY IN THE PHILIPPINES, REPEALING
FOR THE PURPOSE REPUBLIC ACT NUMBERED
FIVE THOUSAND NINE HUNDRED TWENTY-ONE
(R.A. NO. 5921), OTHERWISE KNOWN AS THE
PHARMACY LAW

Be it enacted by the Senate and House of Representatives of the
Philippines in Congress assembled:

SEC. 53. Effectivity. - This Act shall take effect fifteen
(15) days after its publication in the Official Gazette or in a
newspaper of general circulation.

Approved:  
FRANKLIN M. DIZON FELICIANO BELMONTE JR.
President of the Senate Speaker of the House
of Representatives

This Act was passed by the House of
Representatives as House Bill No. 5616 on May 23, 2016
and adopted by the Senate as an amendment to Senate
Bill No. 2436 on May 30, 2016.

 
OSCAR G. YARES MARILYN B. BARUA
Secretary of the Senate Secretary General
House of Representatives

Approved:

BENIGNO S. AQUINO III
President of the Philippines

Current Situation in Hong Kong

FIP DIGITAL PROGRAMME
**TRANSFORMING
VACCINATION**
GLOBALLY & REGIONALLY

- No separation of prescribing & dispensing of drugs
 - * **Vaccination Services**  **in progress**
- Obtained verbal support from top official, Secretary for Food and Health & Dean of HKU Li Ka Shing Faculty of Medicine
- No regulation to stop pharmacist to do vaccination but the vaccines are prescription items

General Practice: most doctors will do the vaccination themselves.

In reality, we can do it under the supervision of doctors or you receive prescription for the vaccines/ or Department of Health will send nurses to do outreach vaccination programs

ADVANCING

WORLDWIDE

Vaccination Training and practice

PSHK provides **training including practical session in the community**

- The trained pharmacists have performed seasonal influenza vaccination under the Government Vaccination Subsidy Scheme through PSHK Vaccination Outreach Program
- Plan to have a Certified Training Program jointly organized with The University of Hong Kong

Advancing Hong Kong Pharmacy Profession Development – Local Continuing Education Programme funded by HKSAR government

Barriers

- Classification of vaccines
- Insurance (expensive or not accepted)
- Space (as some community pharmacies are quite small in size)
- Advance order of vaccines, otherwise, stocks might not be available
- Public support (change mind-set)

Actions needed to advance the issue

1. Authorize pharmacists to do COVID-19 and Flu vaccines independently

- Continue to lobby government especially before the COVID vaccine delivers to Hong Kong

2. Reclassify vaccines from prescription to pharmacy item

3. Invite FIP management to send support letter to HKSAR Chief Executive, Secretary for Food and Health and Pharmacy and Poisons Board to share international experience on vaccination by pharmacists

4. Lobby members of Pharmacy and Poisons Board to support the reclassification

5. Promote the new role of pharmacists

6. Continue to gain trust from public and other HCP

- More collaboration with other HCP
- Follow the big trend, e.g. District Health Centers which target to provide Primary Care Services

PHARMACY
WORLDWIDE

One-minute survey

FIP DIGITAL PROGRAMME

**TRANSFORMING
VACCINATION**

GLOBALLY & REGIONALLY

1. Will community pharmacies/pharmacists in your country be involved in vaccinating against COVID-19?
2. Will community pharmacies/pharmacists in your country be involved (or are involved) in performing COVID-19 tests?
3. If yes, what types of tests?

If YES for any of the questions above, **please share a URL or send any documents by email to gspinto@fip.org with the details** of how this will be (or is being) done: whether a medical prescription is required, what are the technical requirements for the service, if and how test results will be communicated to health authorities, supply chain issues, remuneration for the service, etc.)
